

Lab #6: Knoxcraft Terps Lab Report

* Indicates required question

Email *

☐ Record **dbunde@knox.edu** as the email to be included with my response

If we publish this assignment as a "nifty assignment" (basically, an example of something interesting that students can do in an intro CS course), can we use your code, 3D structures as examples of things students can make? *

We would not use your name. It would just say, "A student was able to make this".
You get credit for the assignment either way.

☐ Yes

☐ No

About how many hours did you spend on this assignment? *

Choose ▼

None at all. 1 2 3 4 5 6 7 A ton!

How hard was it to get the correct version of Minecraft working and connected to the server? *

Really easy 1 2 3 4 5 6 7 Really difficult

How hard was it to write the Java code to create the 3D structures you wanted to build? *

Really easy 1 2 3 4 5 6 7 Really difficult

Was this assignment fun? *

Not fun at all. 1 2 3 4 5 6 7 This assignment was so fun that it changed my life!

or that improvements should be made.
