

Flag Maker Activity Student Engagement Survey

Time Requirement: under 10 minutes

Purpose: This survey asks you about the in-class activities on parallel computing as applied to the Flagmaker. We will use the results to evaluate these activities for possible use in future terms and at other institutions. The survey should take no more than 10 minutes. There is no explicit reward for completing it, but we appreciate your input and will use it to improve computing education for future students. We do not believe that your participation carries any risk to you. Your responses will be anonymous; no one will be able to connect them to your identity unless you identify yourself in the response itself. If you choose not to participate, simply do not take the survey. You may change your mind about participating at any time prior to submitting the survey. Do not take the survey if you selected "I do not consent" on the consent form provided to you at the beginning of this class.
