

Lab 3 Lab Report

Answer the questions below about this assignment. They are asked to help you reflect on the assignment and to help your instructor learn about your experience working on it. In addition to using your responses for these purposes, the CS department is requesting permission to include your responses in a study to evaluate new materials for this course. You are not required to participate in this study. You will not receive any benefit for participating, though we hope to use the results to improve future offerings of this class. There is no penalty for declining to participate.

If you agree to participate in the study, your responses to will be compared to responses for other assignments (in this term and other terms). Your data will be stored without any identifying information; your instructor will remove your email address from your response before submitting it to our study. Participation requires negligible additional time since you're answering the questions anyway. If you wish to withdraw from this study at any time, contact your instructor.

If you have any questions about this study, you may contact Profs. Bunde (dbunde@knox.edu) or Spacco (jspacco@knox.edu), who are running it. Questions about the consent process or form can be addressed to them or to Prof. Nick Gidmark (ngidmark@knox.edu), Chair of the Knox College Institutional Review Board for Human Subjects Research.
